PUBLIC QUESTIONS AND STATEMENTS

Question from Mr A

Re Rectory Lane East Car Park proposal for redevelopment:

1. How were members of the public consulted on the loss of this busy car park? If they were, what was the result?

2. Given that Rectory Lane East is the first car park that anyone coming down Regiment Way and feeding into Chelmer Valley Road from the “North Chelmsford action plan” area hits and with more and more houses planned in north Chelmsford, why is the Liberal Democrat Administration proposing to remove the car park that essentially serves all those new homes?

(Note I drive an electric car so driving out of town to the park and ride to get a diesel bus back into town is not an acceptable or practical solution if you were going to suggest that)
